

Internationalisation of Research in the Department of Electronic and Computer Engineering

Mobile Marine Robotics Research Centre & Optical Fibre Sensors Research Centre

Annual Colloquium 2016

19th December 2016

Organised by Dr Charusluk Viphavakit of the OFSRC

On the 19th December 2016 the Mobile Marine Robotics Research Centre (www.mmrrc.ul.ie) and the Optical Fibre Sensors Research Centre (www.ofsrc.ul.ie) from the Department of Electronic and Computer Engineering (www.ece.ul.ie) held their Annual Progression Colloquium in AD2-010. The postgraduate students from these centres presented their research work completed in 2016 and their plans for the coming year. Stimulating discussions took place for each and every project and possible collaborations in future work was highlighted.

The students from both centres hail from a variety of cultures and nationalities (Irish, German, Italian, Bosnian, Croatian, Serbian, Libyan, Iranian, Pakistani, Indian, Taiwanese and Chinese). This demonstrate the true international reputation of both centres and our commitment to the University of Limerick strategic plan and Internationalisation goal.
